

CHYAVANPRASH

LIMITED EDITION

Not available from March to August!

KNOW WHY→

'Quality will never be compromised'

This promise by Dadi is reflected in all our products.

For Chyavanprash, Amla is harvested fresh during its peak season, which runs from September to February.

We only manufacture it then, as we don't believe in cold storage or artificial preservatives, which strip Amla of its nutrients; the very essence of Chyavanprash.

Quality isn't just a marketing gimmick for us - it's the soul of everything we do.

SITOPALADI

If you think Sitopaladi is just for cold & cough, **YOU ARE WRONG!**

It's not just about solving problems - it's about preventing them!

People often tell Dadi, "Your Sitopaladi worked wonders for my cough!" While that's true, she always reminds everyone that Sitopaladi is not just a remedy; it's a routine.

In Ayurveda, routine is everything. Dadi recommends consuming Sitopaladi regularly, not just to soothe colds & coughs but to strengthen your immunity, improve digestion, ward off allergies, and nurture overall health.

GULKAND

Roses are red,
So is Desi गुलाब

Turn this page over and
discover its लाभ

Roses aren't just for gifting;
they're also a gift for your health!

Here's why:

- Naturally cools your body from within.
- Helps reduce acidity and improve digestion.
- Relieves stress & promotes restful sleep.

Enjoy its benefits in the form of our Gulkand!

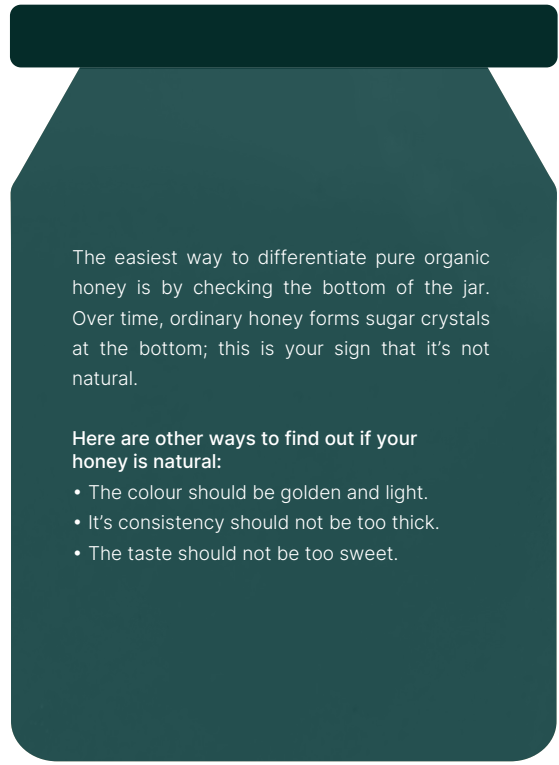

Made with just two ingredients: Dhaagewaali Mishri & Desi Gulab; sourced directly from farms where the finest Desi Gulabs bloom & only the freshest petals make their way into your jar.

RAW HONEY

If your honey forms sugar at the bottom,
it doesn't deserve a spot at the top.

KNOW WHY→

The easiest way to differentiate pure organic honey is by checking the bottom of the jar. Over time, ordinary honey forms sugar crystals at the bottom; this is your sign that it's not natural.

Here are other ways to find out if your honey is natural:

- The colour should be golden and light.
- It's consistency should not be too thick.
- The taste should not be too sweet.

GUT CLEANSER

The Gut Cleanser has some side effects...
But trust us, they're all good!

A healthy gut is the foundation of a healthy life.

When Dadi's husband struggled with chronic indigestion, her father shared a family remedy that worked wonders. Over the years, Dadi added her touch, and what started as a simple gut remedy has evolved into an all-in-one wellness booster with 'positive side effects.'

The Gut Cleanser clears the gut, eases headaches, strengthens joints, supports sugar management, and builds immunity.
